THAT STEWART
GARNISHEE

The following appeared in the Advertiser this morning: "Attorney C. W. Ashford telephoned a request to the Advertiser last night to contradict, on his authority, a report in the Star that the salary of Miss Stewart, a school teacher, had been garnished. He stated that Miss Stewart has paid the bill in question and holds a receipt therefor."

This is what was printed in the Star

MAUI MAKES A HIT

(Continued from Page One).

of Central Maui were shown the visitors, this including a visit to Puanene Mill, which is the largest sugar manufactory in the world. The party then proceeded to Paia by train, where they were turned over to the Waikuku subcommittee to the Makawao subcommittee. A trip to the largest extinct crater in the world was the next on the program. At Paia the party was met with automobiles, vehicles, etc., and after sundry visits, Olinda was reached.

At 2 a. m. this morning the party started from Olinda for the crater, furnished with a guide. Nearly everyone in the body took advantage of this occasion to visit Haleakala, and their efforts were well repaid, for it was very clear and beautiful morning, and sunrise was just excellent. The cloud effects were something grand, and the panoramic view beneath inspired the Congressional party with awe. Most of them returned to Waikuku and Kahului this afternoon, some remaining at Makawao.

Tomorrow the whole Congressional party will be taken in hand again, and endless amusement will be had at the Shark fishing exhibition. Several hogs carcasses have been placed in the harbor at Kahului to tempt the ferocious shark, and tomorrow at 9:30 these carcasses will be put into the water, when an attempt will be made to catch one or more of these sharks. Reports from Kahului this afternoon (5 p. m.) are to the effect that the harbor is already alive with sharks, fins being seen in all directions, which promises well for a whole lot of fun tomorrow. The whole program will wind up with a grand luau at 11 o'clock tomorrow at the Kahului fishery, where everybody is invited to partake of the tempting viands which will be spread on the long tables. This part of the program was naturally left to Judge Kepolai, who can be depended upon to do everything just to the queen's taste, when it comes to Hawaiian luau.

At 2 o'clock the Claudine will take the party to Hawaii, but it is the belief of many who have met some of the Congressmen, that it will be a long time before they will forget their experience on Maui. Mr. Williams, superintendent of the Kahului Railroad Co. has rendered every assistance in his power for the accommodation of the Congressional party, and train schedules have been arranged to suit their convenience. The party appreciate their stay on this island. Incidentally, during the shark fishing exhibition, the benefit of the Kahului breakwater to that harbor will be shown the congressmen. This breakwater was built with private capital.

NEXT SATURDAY.

There is to be another grand time at Haleiwa next Saturday night. The second of the moonlight dances will take place and the best music obtainable will be on hand for Saturday and Sunday. The last affair of this kind was so satisfactory to our guests and to us that it will be a pleasure to repeat it. Summer rates are now in force and this will be a good time to engage accommodations. RIVERSIDE LEAGUE
AT AALA PARK SUNDAY

JAPANESE AND CHINESE ATHLETIC CLUBS PLAY FIRST AND PALAMA AND KAKAOKA NEXT.

Tomorrow afternoon at 1 o'clock the Japanese Athletic Club will cross bats with the Chinese Athletic Club. This will be an interesting game, as the sons of Dai Nippon have shown that they can play some, and the Chinese are old veterans at the game and champions of last year.

The second game will be played by the Palama Athletic Club and the Kakaoka Athletic Club, and from the fact that the Kaalas are down to hard practice during the past few days since their bitter defeat from the hands of the sons of Admiral Togo the Palamas will have their hands full.

FENNELL IS MADE
LICENSE INSPECTOR

THE COMMISSION HAS CONFERRED WITH ATTORNEY GENERAL PETERS YESTERDAY.

The Oahu liquor license commission has decided to follow the rule of the Territorial authorities in the matter of the definition of a "property holder". Under the new liquor law an applicant has to secure the permission of a majority of the property holders within 1,000 feet of the proposed site of his saloon, to the issuance of a liquor license. This was the definition of "property holder" made by Treasurer Campbell in his enforcement of the old liquor law.

"A property holder, as used in this office in connection with the liquor law, means a person who occupies a place, either as owner or tenant; and if unoccupied, the person who has possession of the place, either as owner or tenant, and in no case are roomers or lodgers considered property holders or occupants."

At the meeting of the license commission yesterday this matter was discussed. Attorney General Peters was called into consultation and explained the operation of the old law as well as the legal aspects of what constituted a "property holder." Treasurer Campbell who is also a member of the commission spoke.

The commission decided to follow the territorial definition and the issuance of licenses will be based upon the construction as given by the Treasurer.

HOT GAMES TODAY.

The League games at the baseball park this afternoon promise to be interesting, and the outlook for even a larger crowd than attended the opening games last week is very favorable.

The first game today is being played by the Kamehameha and the Diamond Heads. Reuter pitches for the Kams, and Chillingworth or Hampton for the Diamonds. Both of these teams were the losers in last week's game.

The second game between the two leading teams, will be a hot one. Desha or Williams will pitch for Punahou, while the St. Louis will have Burns or Bushnell in the box.

Miss Mildred Keller, 718 13th street, N. W., Washington, D. C., writes: "I can safely recommend Peruna for catarrh. I had it for years and it would respond to no kind of treatment, or if it did it was only temporary, and on the slightest provocation the trouble would come back."

"I was in such a state that my friends were alarmed about me, and I was advised to leave this climate. Then I tried Peruna, and to my great joy found it helped me from the first dose I took, and a few bottles cured me."

"It built up my constitution, I regained my appetite, and I feel that I am perfectly well and strong."—Mildred Keller.

The Strength of a Surety Company lies in its Surplus. This Company's Surplus amounts to \$2,836,381.39. Whenever the Surplus of a Surety Company is exhausted the Stockholders must be assessed or the Capital reduced and a portion carried to Surplus, or the Company must be liquidated.

It is the duty of the Public Officials, when approving Bonds for Fiduciaries, Public Officers or Contractors for Public Work, to take note of the Surplus of a Surety Company, in order to ascertain whether the Company could pay any claim that might be made against it under the bond.

Bank Officers and Managers of Corporations should observe this rule in approving surety bonds.

Departments of the United States Government have recently issued orders limiting the qualifying power of a Surety Company to 10% of its Capital and Surplus on the penalty of any bond.

The Fidelity and Deposit Company of Maryland ends the sixteenth year of its existence in a stronger and better condition than it has ever been since its organization.
